Adventure escorted by your Host: ♥ to be announced

Costa Rica Adventure

2027 Jan 26 – 29 ~ Post-Cruise

Costa Rica isn't the most dramatic country in the world in terms of famous landmarks, and it doesn't have ancient ruins, castles, or the great museums of Europe. Yet people return again and again because of how the country *feels*. It offers an unusual combination of biodiversity, accessibility, and a relaxed culture that's difficult to find elsewhere.
The wildlife is astonishingly easy to see.

Costa Rica contains only about **0.03% of Earth's land area**, yet it's home to roughly **5% of the world's biodiversity**. You don't have to go on a week-long safari—you might spot:

- Sloths hanging in trees
- Three species of monkeys
- Scarlet macaws
- Iguanas
- Brilliant blue morpho butterflies
- Tiny red-eyed tree frogs
- Toucans right outside your hotel

Four very different ecosystems in one vacation. For photographers and nature lovers, it's a dream.
In just a few hours you can travel from:

- Tropical Pacific beaches
- Active volcanoes
- Cloud forests
- Rainforests
- Coffee plantations

Very few countries let you experience so many distinct landscapes in such a short amount of time.
Costa Rica boasts 29 National Parks.

The cloud forests
Places like Monteverde Cloud Forest Biological Reserve feel almost magical. Moisture from the clouds sustains moss-covered trees, orchids, ferns, and an incredible variety of birds. Walking through the mist is unlike visiting a typical forest.
Arenal Volcano
Arenal Volcano is one of the world's most perfectly shaped volcanoes. Even though it's no longer erupting regularly, the combination of the volcano, rainforest, waterfalls, and natural hot springs makes the area exceptionally scenic.
