Information for your Trip

Bali is a dream destination, but it has some specific entry rules that have become more digitized recently. Here is everything you need to know for a smooth trip in 2026.

Passport & Visa

- **Passport Validity:** Your passport **must** be valid for at least **6 months** from your date of arrival. Indonesia is strict about this; airlines may deny boarding if you have less time or if your passport is even slightly damaged (e.g., a torn page or peeling laminate).
- **Visa on Arrival (VoA):** Most tourists (including those from the US, UK, Australia, and EU) can get a 30-day **Visa on Arrival**.
 - **Cost:** IDR 500,000 (~\$30–\$35 USD).
 - **Tip:** Apply for the **e-VoA** online at the [official immigration website](#) before you fly. This lets you use the **Autogates** at the airport, saving you from long manual immigration lines.
- **Return Ticket:** You are officially required to show proof of a return or onward flight out of Indonesia.

Mandatory Entry Documents (2026)

Aside from your visa, there are two digital forms you **must** complete:

1. **Bali Tourist Levy:** Since 2024, all international tourists entering Bali must pay a one-time fee of **IDR 150,000** (~\$10 USD). You should pay this on the [Love Bali website](#) and keep the QR code on your phone.
2. **Electronic Customs Declaration (e-CD):** Paper forms are gone. Fill this out online at [ecd.beacukai.go.id](#) within 3 days of your arrival. You'll get a QR code to scan after you pick up your luggage.

Currency & Money

- **Currency:** Indonesian Rupiah (IDR).
- **Exchange Rate:** Currently, \$1 USD is approximately **IDR 16,800**. A quick way to "mental math" this is to think of IDR 100,000 as roughly \$6 USD.
- **Cash vs. Card:** While major hotels and restaurants in tourist hubs (Seminyak, Canggu, Ubud) accept credit cards, Bali is still very much a **cash society** for local markets, small "warungs" (eateries), and transport.
- **ATM Safety:** Only use ATMs located inside bank branches or well-lit malls. "Skimming" can be an issue at isolated street-side ATMs.

Electricity

- **Plug Type:** Bali uses **Type C** and **Type F** (the two-prong round European style).
- **Voltage:** 230V / 50Hz.
- **Note:** If you're coming from North America (110V), ensure your devices (like hair dryers) are "dual voltage." Most phone and laptop chargers are already dual voltage (check for "Input: 100-240V").

Pro-Tips for the Island

- **The Water:** Do **not** drink the tap water. Use bottled or filtered water even for brushing your teeth if you have a sensitive stomach ("Bali Belly" is a real vacation-ruiner).
- **Transport:** Download the **Grab** or **Gojek** apps. They are the "Uber" of SE Asia and offer fair, fixed pricing for cars and motorbikes.
- **International Driving Permit (IDP):** If you plan to rent a scooter, you **must** have an IDP from your home country. Without it, your travel insurance is likely void if you have an accident. You can get one at any AAA, and you do not need to be a AAA member.

Bali - The Region

Long recognized as an exotic paradise, the island of Bali is a picturesque vision of green rice fields and plantations, soaring volcanoes, cool lakes, rushing rivers, lush forests and palm-fringed beaches. It is Indonesia's number one tourist spot and it is not difficult to understand why, with its incredible coastline and the charm of its smiling people, especially in the many small rural villages and fascinating places of the fertile interior.

What sets Bali apart from the rest of Indonesia is the prevalence of Balinese Hinduism. Scattered around Bali are thousands of Hindu temples and places of worship. The island's religious beliefs are evident in the ceremonies, daily rituals and attitudes of the locals, in the offerings of flowers and food that adorn the roadsides, the charms hung inside taxis, and the numerous vibrant festivals that occur throughout the year.

It is also perceptible in local reverence for the Holy Mountain, the soaring volcanic cone of Gunung Agung, which is the spiritual center of the Balinese universe.

Art is an integral part of daily life and every village has its artists, from internationally acclaimed painters to aspirational young cow herders.

Ubud, the cultural center, with its streets lined with art and crafts shops, also offers regular performances of traditional Balinese dance and music.

Art, together with tourism, is an important source of revenue for the island.

With its fine beach, the popular resort of Kuta is the most visited destination. Located just a short drive from the airport in southern Bali, it is blessed with a lovely sweep of golden sand, crashing surf and spectacular sunsets.

Visitors will find a range of tourist trappings along with the natural attractions, including shops, hotels, excellent restaurants and an energetic nightlife.

Our last night will be spent on the beach in Kuta.

Bali is a tropical paradise with a rich and intriguing culture, and beautiful land and seascapes. Travelers will find it an idyllic holiday destination.

Bali - Getting Around

Bali can be a challenge to navigate, as the aging infrastructure struggles to support rapid development. Road rules are practically non-existent, and traffic can be chaotic with frequent jams in Denpasar and other major centres. Renting a motorbike is an adventurous way to see the island, though this is only recommended for very experienced drivers. Cars are available for hire with a driver, which can be the most stress-free way to get around.

There is limited bus service in Bali, and this can be an inexpensive option for travellers who are willing to be very patient. Shared minivans (bemo's) are available, though metered taxis are much more common in Denpasar and southern Bali. Travellers can arrange transport through ride-sharing apps (Uber, Grab etc), but drivers are not allowed to collect them in certain areas, such as temples or some beaches.

Bali - Climate

Lying just south of the equator, Bali has a tropical monsoon climate with two distinct seasons: wet (November to March) and dry (April to October).

Bali, and in fact the whole Indonesian archipelago, experiences only slight temperature variations from season to season due to the warm ocean currents that keep heat fairly constant on land.

There is also very little variation in daylight hours from season to season.

The dry season has hotter temperatures, but the humidity levels are much higher during the wet rainy season.

The height of the summer season also brings cool breezes to temper the hot weather. Temperatures are cooler in the mountainous areas and it is less humid.

The average annual temperature is about 86F (30C).

It is generally better to travel to Indonesia in the dry season between April and October. May, June and July are generally considered the best months to visit Bali.

June 16 - Tue / Ubud (Central Bali) - Arrival at Denpasar Airport

Airport pick up - Denpasar

Ngurah Rai Airport (DPS) is the same as Denpasar Airport; it's Bali's primary international airport, officially named [I Gusti Ngurah Rai International Airport](#), and serves the capital city of Denpasar, though it's located about 13 km south of the city center in Tuban, near Kuta. People often use "Denpasar Airport" or just "Bali Airport" because it's the main gateway to the island, despite being geographically closer to Kuta and Jimbaran.

There will be FOUR group transfers. Your driver/guide will meet you at the Arrival Hall holding a sign: **"Scottsdale Ski Club. Welcome to Bali!"**

Bali - Nightlife

The nightlife in Bali is mostly located around the busy resort town of Kuta, where everything from karaoke bars and pubs, to discos and clubs can be found bustling until the early hours. Travellers can enjoy sundowners at a rustic beach bar followed by dinner and a pub crawl, until the bass lines thump and the party animals start crawling out of the woodwork around midnight. Hot nightlife spots include the main drag of Kuta and the Legian Beach area, which is the place for rockers. There are events such as full-moon and half-moon parties taking place frequently, especially on Legian Beach. Seminyak also pulsates after dark and countless clubs, bars and sexy dancers can be found.

Lovina, Nusa Dua, Ubud and Sanur offer a more low-key variety of nighttime entertainment, which is mostly confined to restaurants and hotels. However, there is always something happening to keep the young at heart entertained. For a vibe that is halfway between the sleepy streets of Ubud and the heaving clubs of Kuta, travellers should head to Canggu. With plenty of hip bars and beach shacks to drink at, they can chill and kick back until sunrise, but perhaps without the pulsing headache that the clubs down the coast promise.
